

GAS TEST GAUGE

TECHNICAL DATA

Features:

- Provides a quick and easy means of pressurizing and monitoring gas system for leakage
- Gauges assembled on brass hex manifold incorporating an air valve
- Gas test manifold coupling is a trouble free alternative to test gas systems
- Coupling available assembled complete with pressure gauge and air valve or coupling only

Specification:

Dial Diameter:2"

Range:0-100 PSI

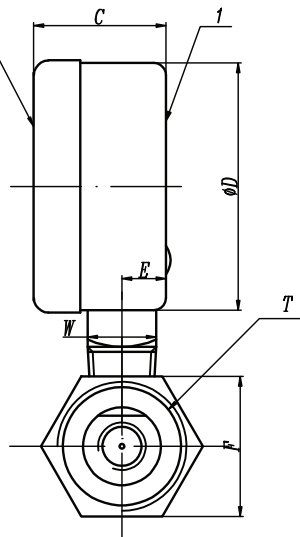

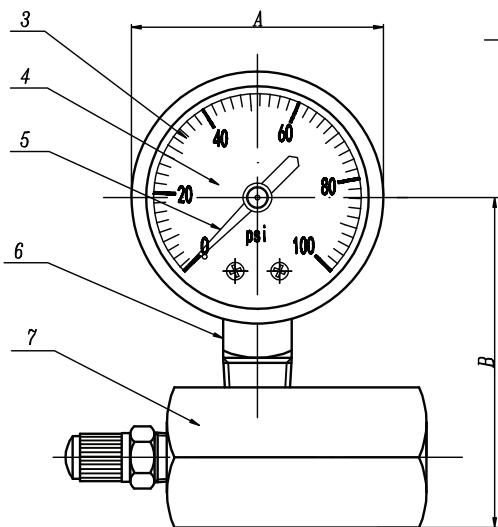

Fitting:3/4" Female

PART# **DESCRIPTION**
TG-G-100 3/4"GAS TEST GAUGE ASSEMBLY 0-100 PSI

Country of origin: China
